EXTREME RARITIES

Fr. 1230 - Full Sheet of Twenty Inverted Reverses

This is the only full sheet of inverts to reach the market since the turn of the century and may well be unique. The sheet appears new from the Face but light folds make the individual notes range in grade from Very Fine to About New 5,000

Fr. 1299 - Choice New

One of the finest known of this rare note. Excellent margins 2,000

Fr. 1344 - Choice New

Very nearly Gem. One of the finest five known of this very rare note. Just a hair off the quality of the one which brought \$3,100 in our 1980 Auction. 1,750

Milton 2E5F.2a - Choice New

This note was given its Milton Number from its appearance on an 1893 price list, but its whereabouts was unknown from that time until this year. It is an unfinished proof with no values; printed on heavy, yellow paper with wide margins. Dated Act of July 17, 1862; one of only five known pieces with this date. The portrait of Washington is pasted down in its proper position. Unique! 3,000

Milton 2E5F.2e - Choice New

Identical to the above except this is on thick, white paper 2,750

10¢ Second Issue Negative Essays

Two negative essay Reverses of the same denomination; one in bright purple and the other in the adopted green. Both are extremely

bright, sharp impressions and both are discovery pieces never having been listed in any catalog. Both are stamped Specimen and punched with two half moon cancels. These two pieces displayed together would be the highlight of any Fractional Collection. Both pieces are Superb Gem New and both are unique with no others even rumored to exist...6,500

Milton 3E25F.2a - Choice New

An extremely rare Third Issue Experimental Note, one of three known of this type. The Face is identical to Fr. 1298 including the design letter "a"; the Reverse is blank. Printed on very heavy fiber paper with exceptional margins. Stamped Specimen and punched with the two half moon cancels plus three additional round cancels 2,750

GRADING STANDARDS

GEM NEW: Fully new, better than average margins for the issue on all four sides. Excellent centering of the design both face and back, no signs of aging; and of course no folds or pinholes

CHOICE NEW: Fully new, almost as nice as gem, but not quite there

NEW: Fully new, no trace of circulation, it may be off center, it may have some aging, it might have a pinhole

CHOICE ABOUT NEW: Close examination will find a trace of a circulation-caused defect, some light soil, a corner fold, etc.

ABOUT NEW: A note that has seen some very light use. It will appear new unless examined closely. Similar to the above but not quite as nice in overall appearance.

EXTRA FINE: A note that has been clearly circulated, but has no serious defects. Still bright, no folds breaking the ink

VERY FINE: Well circulated, but still with some body to the paper. Folds may just barely break the ink in some places. Still an attractive note, with all features of the design very clear

It has always been our opinion that the grading of currency is far from an exact science. Experience, knowledge, common sense, personal preference, eye appeal and opinion all come into play. Our goal is to develop new customers who will be with us long term for repeat business. To this end all notes are graded by the above standards to the best of our ability. If there should be any disagreement please do not just swallow a note you are not pleased with and go away. That's bad for us both. Let us know the way you see it and we will work with you.
